

EDELSTEIN®
Highly chromatic effect pigments

EDELSTEIN®

Highly chromatic effect pigments

ECKART's innovative patented coatings technology in combination with premium synthetic silicates add manifold benefits to the quality of **EDELSTEIN®** series.

EDELSTEIN® Sapphire Blue is the world's first pearlescent pigment with a deep, highly chromatic blue colour from every viewing angle.

EDELSTEIN® Ruby Red provides a very intense red color tone. Inimitable colour shades can be realized.

EDELSTEIN® Topaz Orange offers a fascinating intensive orange shining flop effect.

EDELSTEIN® Sunstone Champagne gives a unique flop from champagne to soft orange color shade.

EDELSTEIN® series provide far-reaching potential for customers to create exceptional color designs.

Target applications for **EDELSTEIN®** series are cosmetic and food packaging, household appliances, toys etc.

Product Advantages

- Powerful, deep colour shades
- High chroma
- Noble sparkle effect and strong gloss
- Unique chromaticity and color intensity
- New level of brilliance
- High chemical resistance
- Easy incorporation in all common resins
